

History of Gin

The first confirmed date for the production of gin is the early 17th century in Holland, although claims have been made that it was produced prior to this in Italy. In Holland it was produced as a medicine and sold in chemist shops to treat stomach complaints, gout and gallstones.

Fever Tree Tonic Specials

The brand name chosen due to fever tree being the colloquial name for the cinchona tree in which quinine, a key ingredient for tonic, is found. The highest quality quinine was sourced from the Rwanda Congo border & blended with spring water & eight botanical flavours, including rare ingredients such as marigold extracts & a bitter orange from Tanzania. Crucially, no artificial sweeteners, preservatives or flavourings were added.
